- Each card containing personalised moves and stats and their own Sustainability Fact

Recycling Bin Battles

- Every day, battle at different bins across campus to earn rewards for your team
- Battle your Ecomon cards in fun battles, against an AI opponents

Map

- The Home Page features a GPS map focusing on University Campuses
- Campuses feature unique pinpointed areas highlighting where each Recycling Bin is for battle

Wrapper

- Collect packs to unlock new cards but increase your wrapper count as you open
- Recycle your bin as it gets full at bins to keep opening new packs

Teams

- Battle for one of three unique teams following the UK environmental rules: Reduce, Reuse or Recycle
- Each day, battle at gyms to defeat the evil Team Fossil Fuel and .

Specific Requests from Interviewees

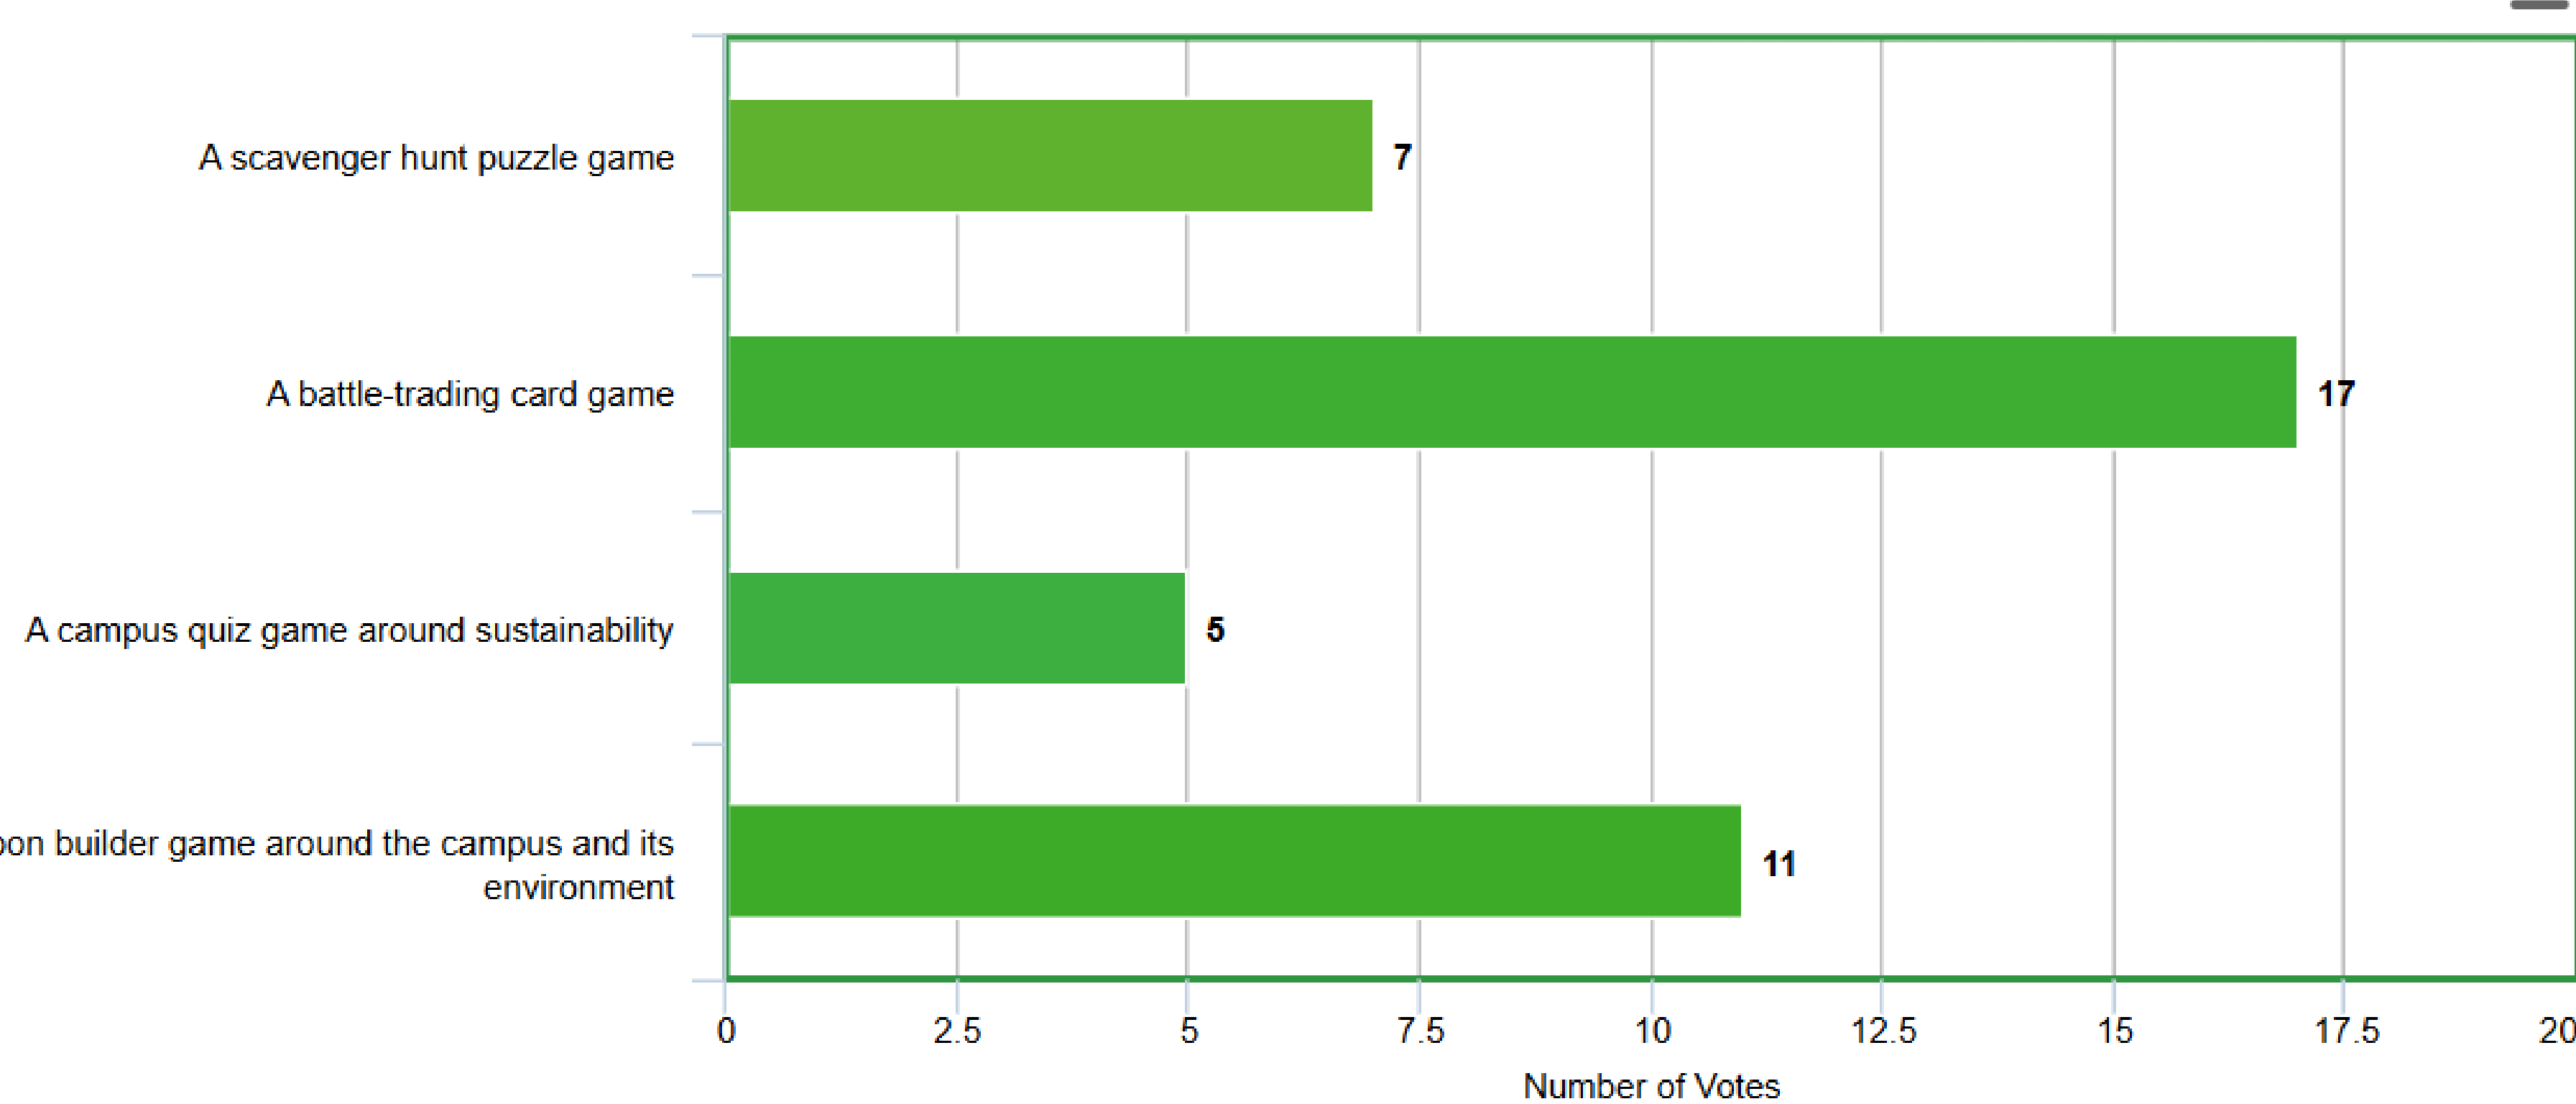

I want it to be competitive, so I can rival friends not just an AI

I want a diverse selection of cards so I can pack loads. Maybe even some rarer ones

I want multiple areas around campus. I have lectures in many different places, so I want to play anywhere

I want teams, I like battling with some people and seeing my team be the best!

Which of these games would you play most?
